

ACCOMMODATION

Campus Køge

Like other educational institutions in Denmark, Zealand Institute of Business and Technology has no accommodation facilities on campus and even though we will help as much as possible, students must in principle make their own arrangements,. Don't expect to find accommodation on short notice but make sure to start looking for accommodation well in advance.

There are a number of student halls of residence, both in the Køge area and in neighbouring areas/cities. International students are eligible for rooms on equal terms with Danish students. *Please note that student rooms in Denmark are not furnished.* Many students live in private or rented rooms or flats (often sharing with other students) or rented rooms in residence halls.

If you need assistance finding temporary accommodation *), you are welcome to contact the following;

Laila Werner, lawe@easj.dk, +45 5076 2196

*) In some cases accommodation we can help you with may be permanent but please note that in most cases this initial accommodation will be short term only and you will need to look for a permanent residence after you arrive. Please note that cannot guarantee accommodation for students and that our assistance and offer is on a "take it or leave it" basis.

You may also find your student accommodation by consulting one or more of the following websites:
