

Horticulture & Business Management

'A highlight of the study so far has been the numerous visits to companies across many domains of the sector, as well as the freedom in a lot of our study to pursue the things that we are interested in.'

Ali – second year student Horticulture & Business Management

DO IT

In short

Did you know that the Netherlands is the second largest exporter of vegetables, flowers, and other agricultural products? It makes sense, therefore, that other countries would like to learn from our expertise in the field of horticulture. In the English-taught bachelor's programme Horticulture & Business Management you will learn all about cultivation and business to become an all-round professional in horticulture. All this is set in an international environment, with students from all over the world.

- + Focus on high tech open and protected cultivation based on Dutch situation and developments.
- + Building your professional network through projects in collaboration with companies in the horticultural sector.

Area of study within the Dutch study programme Tuinbouw en akkerbouw.

Start
September 2023

Language
English

Duration
4 years

Admission Requirements

The admission requirement is a secondary school diploma which is equivalent to a Dutch havo/vwo diploma with the final-year subject mathematics and chemistry. To find out how your diploma is valued in the Netherlands, check nuffic.nl/en.

Curious to know if the programme really fits you? Request the study choice check to your Study Advisor, which is required to complete for this programme.

English Language Requirements

Students who have completed their previous education in English are exempted from this requirement. All other students need to provide proof that they are proficient in the English language. HAS advises the IELTS language test ielts.org. Overall band score (academic programme) must be at least 6.0. More information about other tests, like TOEFL and Cambridge ESOL Certificatie, see our website.

Apply

Complete your application **before the 1st of May**, in order to have admission right (if you meet the admission requirements).
